The Xbox Series S is the lower-end and cheaper version of the PlayStation 5. The difference is that it has less 4K processing power and renders games up to 1440p instead of 4K like on the PlayStation 5. An Xbox Series S is a good choice for 4K Windows League of Legends in Winter 2024. Reviewing as a monitor review on the best Xbox Series S.

120Hz of 1440p? FidelityFX
