We want all of our members to receive the best possible returns from our recommended bets. We know from our information sources that they will generate long term profits. Even the very best professional gamblers will endure losing runs, so it is important to simply follow our recommendations. We will have sequences of winners but also losing runs, this should not affect how you bet at all. Recommended stakes along with guidelines on how to stake, will be provided with the selections.

Simply follow our instructions every day. Don't chase any losses on a bad run or stop betting on a good run as every selection is independently researched and our latest results have no impact at all on the quality or chance of the next recommendation. It's important to be able to access the exact bet too with the bookmakers. For example, if a certain bookmaker is offering 5 places and is highlighted in our advice then that is where you should place your bet. An extra place is a significant advantage for you and can be the difference between a winning bet and a losing one.

Also, if a price and place terms is generally available with many bookmakers then place the bet with a bookmaker who offers Best Odds Guaranteed, this will ensure that even if the price of our selection gets bigger you will receive the best of the price at the time your bet was placed and Starting Price. To ensure you can access the very best terms available on our recommendations, we suggest you open an account with each of our recommended bookmakers. You will then be able to access the very best terms on every bet we advise.

At all times you should gamble responsibly and if it ever stops being fun then refer to our Safer Gambling section for further advice.
