Bwin has stolen my money

Bwin has stolen my money. Here is how, and why you should not transfer any money to these fraudulent scammers.

In July, I opened an account and made two transfers of 15 € in total. I made two bets, one of which was successful in October.

The balance slightly increased.

When I tried to login to my account again, it displayed a window with my personal details but refused to let me go further. I contacted the help chat and was told I would receive an email with assistance.

Two days later, having received no email, I tried to login again and received a message saying my account had been closed.

I contacted their customer service by email. They replied that the account was closed due to a major error by them. They asked me to provide my bank details, which I did.

They then wrote back to say they now need a bank statement in pdf form!

I suspect they have been hacked by scammers.

They have all my account details: I transferred them money from my account in the first place!

Be careful and do not engage in this scam!
