Odds of 7/5 mean you'll win \$7 for every \$5 you wager on the A. Conversely, the odds of 5/8 means you need to wage \$8 to win US \$6 on Texas.

Another way to look at it: If the first number is larger than the second, you're betting on the underdog for a higher potential payoff. This concept is carried over into the world of slot machines, where the appearance of the number 7 on the reels is often linked to winning combinations and bonus features.
