

1xslot

Modern slot machines use random number generator, (RNGS) to determine the outcome of each spin. The result is completely determined by chance! The RNG are constantly being reseeded with new sequenced numbers, even when the machine is not being played. So the timing of the spin from when you push the top and reels has no effect on this outcome. ... - Quora

Stopping the wheel is not supposed to affect the outcome of the spin. Modern slot machines use a random number generator (RNG) to determine the outcome of each spin. Does stopping it reel on a slot machine work? - Quora

Quora: "The 're-spinning' on a bad reel is not supposed to affect the outcome of the spin. Modern slot machines use a random number generator (RNG) to determine the outcome of each spin. Does stopping it reel on a slot machine work?"
