In poker tournaments with an ante, instead of each player posting an Ante each hand, the player in the Big Blind will post an amount equal to the Big Blind. For example: with blinds of 600/1200, the Big Blind posts 600. This is a mandatory bet. Especially, the players who place the Blinds stay in the game, as they have put some money in. What's the difference between Ante and Blinds? - Sportskeeda

Ante is a bet that is placed before the cards are dealt. It is a mandatory bet that is placed by the player in the Big Blind position. The amount of the ante is usually equal to the Big Blind. This means that the player in the Big Blind must post the ante, even if they do not want to play the hand. This is different from a blind bet, which is a bet that is placed after the cards are dealt. A blind bet is a bet that is placed by a player who is not in the Big Blind position. The amount of the blind bet is usually a fraction of the Big Blind. This means that a player can choose to play the hand without posting the ante. This is a strategic decision that is based on the player's position at the table and the strength of their hand.
