```
<p&gt;My experience with learning poker through the limits has been this:&lt;
/p>
<p&gt;at every level, you&lt;/p&gt;
<p&gt; learn something new&lt;/p&gt;
<p&gt;At first, you don&#39;t 1; £ know why it works... but you do know THAT
it</p&qt;
<p&gt; works. For example, how much to value bet.&lt;/p&gt;
<p&gt;Then you start 1, £ to realize other people at&lt;/p&gt;
<p&gt; that level are using that trick and how to exploit it... why it&#39;s
working, how 1, £ it</p&gt;
<p&gt; works... the math behind it... and just every little thing.&lt;/p&gt;
<p&gt;When you see some guy&lt;/p&gt;
<p&gt; floating another guy on 2 1, £ streets and then shoving his entire sta
ck on the river... why</p&gt;
<p&gt; is he doing that? Did some kinda random draw 1, £ come in and he&#39;s
hoping for a call? Is the</p&gt;
<p&gt; first guy really aggressive, does he have a low showdown 1, £ percent?
Is it some kind of</p&qt;
<p&gt; combination of all of the above?&lt;/p&gt;
<p&gt;ls his bet when lead turn % 85?&lt;/p&gt;
<p&gt;What do 1, £ those #&#39;s even&lt;/p&gt;
<p&gt; mean at that limit?&lt;/p&gt;
<p&gt;Pretty much, high-stakes pros aren&#39;t high stakes pros because they&
It;/p&qt;
<p&gt; know fancy moves. They&#39;re 1, £ pros because they understand those
" fancy" moves. FOR THE</p&gt;
<p&gt; MOST PART I think even high stakes pros value just solid 1, £ steady p
lay. For them, the</p&gt;
<p&gt; more simple they can keep their actions the more eV their actions are.
</p&qt;
<p&qt;That being said,&lt;/p&gt;
<p&gt; 1, £ their simple actions are very complex... but things like 4-bet sh
oving loose 3-bettors</p&gt;
<p&gt; with ATC is a very valueable play. 1, £ These plays work because they
understand that their</p&gt;
<p&gt; opponents see the stats they have... that they can&#39;t put them on 1
   £ a bluff and because</p&gt;
<p&gt; the chance that the 3-bettor has a bad hand is a very likely.&lt;/p&gt
<p&gt;lf for some reason,&lt;/p&gt;
<p&gt; 1, £ people @100NL don&#39;t like folding to their 4-bet shoves when t
hey have low suited</p&gt;
<p&gt; connectors... they&#39;re going to figure this 1, £ out and say &guot;
well, there's no point in</p&gt;
<p&gt; 4-betting this guy because he&#39;s going to call with his JTos and 1,
 £ be a favorite." The&It;/p>
<p&gt; other thing you need to realize if that $\pmu 439$; the case is that they $\pmu 43$
