

# hold em poker game

A Hyper-Turbo event is one in which the blind levels increase extremely quickly eleven faster than a Turbo tournament. The length of each round (before the antes) is typically standard. A typical standard structure is as follows: 10-20 minutes per hand, with blinds increasing every five or so minutes, with hyper-turbos being even crazier. The blinds are typically 100/200 in the first round, 200/400 in the second, and 300/600 in the third. The blinds are then doubled every five minutes, with hyper-turbos being even crazier. The blinds are typically 100/200 in the first round, 200/400 in the second, and 300/600 in the third. The blinds are then doubled every five minutes, with hyper-turbos being even crazier.
