Prepare to claim your share of gold Coins and incredible JACKPOTS in the exciting brand-new 777 Coins slot. If you prefer your classic slots with added shine, you will be left dazzled by this latest 3-reel, 3-row and 5-pay line slot smasher.

First of all, let's talk about the BONUS SYMBOLS. These are the shiny gold Coins with varying values. There is also the COLLECT SYMBOL depicted by the gold '777' Coin. When a COLLECT SYMBOL lands in combination with two BONUS SYMBOLS, the thrilling HOLD & WIN BONUS round is triggered. You will get 3 respins on a fresh set of reels where only BONUS and COLLECT SYMBOLS can land. For every new symbol you land, your respin count resets, keeping the excitement going. It is important to note that during this time, the COLLECT SYMBOL stays locked and gathers values from the BONUS SYMBOLS. Once all the visible values are collected, the BONUS SYMBOLS disappear, making way for new ones. And the best part? The BONUS SYMBOLS may land with MINI, MINOR, MAJOR and GRAND JACKPOT values attached. But that's not all! Should you be lucky to score several COLLECT SYMBOLS, they will take turns collecting all the visible Coin values. All of these will add up to your winning pot. Once the respins end, you will get the values from the COLLECT SYMBOLS as your final reward! And when it comes to the maximum payout, incredibly lucky players who will land 3 COLLECT SYMBOLS followed by the GRAND JACKPOT SYMBOL of x2,000 will receive the GRAND PRIZE tripled. This means that an impressive x6,000+ the wager payout is within reach in the HOLD & WIN round! Finally, get ready for an extra dose of thrill with the BONUS ACCUM feature! Every time a Coin Symbol appears in the main game, it's added to the meter at the top of the reels. When this meter fills, the HOLD & WIN BONUS round begins. At the start of the round, there are increased chances for the game to shower your screen with an abundance of BONUS SYMBOLS, setting the stage for big wins!

The 777 Coins slot offers an enjoyable gaming adventure, from crispy retro-themed graphics and catchy tunes to the extra exciting HOLD & WIN BONUS game. Step into the action now and witness the magic of 777 Coins as you chase those shimmering JACKPOTS!
