Macros emulate user input, which on its own can never be considered cheating...
Can indeed trigger some strange cases, but can be considered a "cheat", but such kind of cheat is in 99:99% cases just what the developer overlooked; and it goes by the name of "macro" - Is macro allowed? do Steam Community
Discussion: sepp ; discussion of {kO} Most tournament series are divided into two separate "Qualifiers", where teams play against each other to grab a spot
"Tournament" and the Main Event, where qualified teams play in either single or
-elimination bracket. to become the tournament's champion! Tournamentos: - Dota 2
