<p>Explanation of Board</p>

<p></p>

<p>The term playing the board can be used to describe a situation where a No-limit Hold em player does 🌜 not use any of his hole-cards to formu

late a hand. Imagine the board reads as follows:</p>

<p></p>

<p>Board: T J Q K A f</p>

<p></p>

<p>This is an example 🌜 where all players at the table are forced

to play the board . This is because it is impossible to improve 🌜 on

the strength of an Ace-to-Ten straight by utilizing hole-cards.</p>

<p></p>

<p>Playing the board applies mostly to Hold em, since playing the board &#

127772; in variants such as Omaha is mostly impossible. This is due to the tig

ht hold em rule which forces players to 🌜 always use exactly two of th

eir hole-cards when formulating a hand in Omaha. On the above board texture, Oma

ha players 🌜 would need to have two cards between Ace and Nine in order

to make a straight (not including A9xx).</p>

<p></p>

<p>Example of 🌜 Board used in a sentence -> We open raised pre

flop in Hold em and the board came down Ace-high dry.</p>

<p></p>

<p>How to 🌜 Use Board as Part of Your Poker Strategy</p>

<p></p>

<p>Players may sometimes opt to bluff-catch with board even though stronge

r hands are 🌜 possible. For example, imagine the following board textur

e:</p>

<p></p>

<p>Board: 8 9 7 6 5 f</p>

<p></p>

<p>The board gives Hold em players an automatic Nine-high straight, but th

is is 🌜 not the nuts in this instance. Any player with a Ten in the hol

e-makes a higher straight. A player with 🌜 garbage might still opt to c

all a bet from his opponent in the hope that he is bluffing with the 🌜

board . If his opponent turns out to be bluffing, the pot will be split both wa

ys since both players have 🌜 the 9-high straight.</p>
