Ultra

Fortunator: Hold and Win is a slot machine with five reels and 10

9522; pay lines. There are

no wild symbols or free spins in Ultra Fortunator: Hold and Win slot.

The only thing

you can benefit from is a round called Hold and Win.

gt;

The Hold and Win round in the

Ultra Fortunator slot starts as soon as the entire third re

el is completely covered

with diamond symbols. After that, you will receive three re

spins, during which the

symbols that triggered the feature become sticky, and all new symbols

that appear on

the playing field will disappear, adding their value to the

already existing prize. In

addition, each new symbol that appears on the playing field

will resume the number of

respins up to three. The only symbol that is also sticky will be

the Mystery Symbol,

which will remain on the playing field until the end of the round, and

at the end will

display one of the four jackpots.
