<p>What Is Speedway?</p>

<p></p>

<p>Popular in continental Europe and the UK, speedway is one of the most exhilarating motorsports you can watch &#128068; and bet on.</p>

<p></p>

<p>The motorcycle sport involves adrenaline junkies negotiating flat oval dirt tracks in an anti-clockwise direction on single-gear bikes, &#128068; which can go from nought to 60 mph in just 2.3 seconds. Riders take advantage of the dirt surface by &#128068; sliding their bikes sideways into the bends using a method known as broadsiding, helping them to maintain momentum and power &#128068; down the straight sections of the track.</p>

<p></p>

<p>Speedway Races</p>

<p></p>

<p>Speedway races (also known as heats) are four laps long, with two teams &#128068; of two riders competing for pole position. Some races feature six riders, but this is rare as most modern speedway &#128068; tracks are too narrow to accommodate the additional riders safely.</p>

<p></p>

<p>Home team riders wear red and blue helmets, while visiting riders &#128068; wear white and yellow/black helmets. The starting area is split into a grid of four equal sections, with riders from &#128068; each team taking their place in alternate grids.</p>

<p></p>

<p>Helmet colours determine where each rider starts on the grid. Red starts from &#128068; gate one, blue starts from gate two, white starts from gate three, and yellow/black starts from gate four. When the &#128068; race begins, the riders must complete four laps of the track without both wheels illegally leaving the track boundaries.</p>

<p>Speedway Scoring &#128068; System</p>

<p></p>

<p>Before you start betting on speedway events, it's important to understand how the scoring system works. Speedway uses a 3-2-1-0 &#128068; scoring method, which works as follows for each race:</p>
