If you don't have a Gameboy available to play on, worry not, since you can play games like Super Mario Bros 2 on our website, which are games that take what you loved about the original video games, and makes them available on browsers, where you can play them in flash, just like this awesome new one.

Start by picking if you want to be Mario or Luigi, and know

that you move using the arrow keys, and press the spacebar to select

items. This is going to be basically like Mario Forever, only online, and you get

to re-visit all of the amazing worlds you've grown to love, giving

it your best to reach the end of each level without dying.

Along the way, hit bricks and blocks to collect the coins inside them,

but sometimes you get mushrooms, which can help you grow in size, which is the red mushroom, while the green mushroom will give you the ability to

shoot fire. Avoid or shoot enemies, such as the turtles or the Kappa, because if they touch you, you lose or decrease in size.

The number of lives you have is limited, so don't lose them all. Be careful of the

man-eating plants coming out of the green tubes, but use some of them to teleport. Also, make use of platforms, static or moving ones, and make sure to never fall in the pits, since that also means you lose.

Get to the end of each level, until you finish all the stages and save Princess Peach!

How to play? Use the ARROW KEYS.
